## ECO IN SACRED HEART

How have our school eco improved over the years?

### MRS ELMORE

Sacred Heart is committed to making our school sustainable as possible. Eco club plays a huge role in this as we meet weekly to discuss ideas, plan steps and then put them into action.

How can we help the environment.

### ECO

Our school is home to hundreds of domestic rabbits.

Rabbits making holes all over our fields. Squirrels roaming our trees and our fields. British birds conquer the skies. Birds such as magpies, pigeons and red kites.

The river Lea is a neighbour to us, so we see lots of gull's ducks, swans and moorhens. Last year a transporting hedgehog family sheltered at our school. Our pond is surrounded by wild-life making eco system. Home to tadpoles, newts and water skaters. As a school we achieved the green flag two times in a row.

## SPORTS IN SACRED HEART

How have we improved un sport over the years at Sacred Heart?

### MR MCINTYRE

Children are much fitter and this means we are more successful in competitions.

# SPORT

In sacred heart we are fortunate for how well rounded we are. We are good at netball, foot-ball, rugby and even more. We do good in all the events we are entered into. Everybody gets a chance to try something new and have a good time. Everybody loves sport in sacred heart and is always exited to have special events like sports day. On the 22<sup>nd</sup> of January we had are first hope cup match of this year and we won 5-0. We have more events coming up like cross country and district sports. We want to become even better at sport and more fit.

What is good about sport in Sacred Heart.

### MRS JEPSON

At sacred Heart we have leaders that ensure children practice the sports before going to the event. Children work well as a team or in-dividually.

## Prefect in Sacred Heart

What do we do as prefect?

# Prefects

Our prefects have lots of duties to help our school community. We set up assembly, tidy up, set up outside and many other jobs, as Y6 we take on. Making our school one bit better at a time. We take lots of responsibilities. As we grow up this will help our future. We get paid [fake money] and if we reach 950, we get a prize, such as watching a movie. We are happy year 6s, with excellent teachers to help us through the year.
