

NATURE

- Red = solo
 - Green = upper part
 - Purple = lower part
-
- When they overlap, it is the same note
 - Use the counting (1,2,3,4 etc) rather than the physical line lengths as I ran out of room on some of them and had to make the lines shorter!
 - I think the hardest part is the **lower line** finding their note on slides 3,7,13 and 17.
